Students Without Borders; Washington Post (Washington, DC), Maria Glod
Jun 24, 2009 | pg.B.1 | Lexile Score: 1190 | Size: 8K | SIRS Researcher
Summary: "A team of very smart teenagers has set out to discover ways that maggots might make it across the world. Two live more than 9,000 miles away in Singapore....Even as globalization has fed the rest of the world, it also has spawned classroom connections across oceans. Teachers, driven by small-scale experiments, say lessons once pulled mainly from textbooks can be redesigned to link students across the world through secure videoconferencing. [International cooperation](#), [Educational technology](#), [Global impact](#), [Alternative education](#), [Global impact](#)
