NEW BUSINESS

BOR Database Group Expansion Update

Turman gave a brief history of the agreement SDLN had with Minitex, the MOU between SDLN, the State Library and various libraries to maintain statewide access for databases.

The agreement with Minitex was set to expire in a year, but has been extended until 2020. Next year, the consortium will work with Minitex for pricing as we move forward.

Bossman stated, "One of the great things about our collaborating and having the Ebsco products, is it really makes it seamless for our students when they start to use these in junior/senior high for research. Then they can go right into college and they are using the same databases. That's not true in a lot of states; it's a value that is overlooked."

Bossman also mentioned that depending on funding, an area where we might expand our collaboration would be the courier service. Referring to the courier, Turman noted that as we take up those discussions, the Regental library directors would also like to explore the opportunity to be involved in determining timeline and location decisions. Bossman agreed.

"Code of Conduct for Boards, Commissions and Authorities"

An informational document for the board members.

Turman clarified that at this point the board is taking this document under advisement.

The board would like to discuss further at the September meeting.

State Statute Changes

Turman and Bossman have discussed potential revisions to the statute. The detail that is there can be moved to administrative rule. Bossman would like to discuss the commission note with Holly in DOE Legal.

Updated Collection Development Policy

A MOTION was made by Nelson and seconded by Anderson to approve the revisions presented in attachment F.
